For more information, please contact:  
Nick Reid  
Vice President, Strategic Partnerships  
Ontario Clean Water Agency  
416-775-0545  
nreid@ocwa.com

As the largest operator of municipal water and wastewater facilities across Ontario, OCWA can connect innovative solutions or services to our “Network” of water and wastewater contacts at staff, political and operational/technical levels.

OCWA can provide market advice on sustainability and opportunity in Ontario/Canada and establish first customer relationship, validation and testimonial.

If you have an innovative water technology or service that you’d like to test in an OCWA operational environment, visit [www.ocwa.com/en/innovation](http://www.ocwa.com/en/innovation).

---

*“We came to the meeting looking for exposure to the water community and access to early adopters for our platform. After our pitch, several interested companies visited our booth and we’re having many subsequent conversations about moving forward.”*  
— Ahmed Badruddin  
WatrHub Inc.

---

*“The OCWA Technology Showcase opened up a number of opportunities for immediate commercial sales, and we were introduced to key decision makers at the municipal level. As an event focused solely on water and wastewater technologies and services, the OCWA Technology Showcase was a fantastic experience for a young company such as ours.”*  
— John Bell  
VP Business Development  
Greyter Systems Inc.

December  
3 & 4, 2013

## » Save the Date

Don’t miss an opportunity to attend/participate in the **3<sup>rd</sup> Annual OCWA Technology Showcase**, taking place December 3 & 4, 2013 at the Hilton Toronto Airport Hotel & Suites. We are excited to once again be introducing new and emerging technologies in the water and wastewater sector. Listen to knowledgeable experts from the industry as they provide interesting perspectives on innovation and technology.

More information will be forthcoming at [www.ocwa.com/technology\\_showcase](http://www.ocwa.com/technology_showcase).
